Professionally Designed Landscape Lighting

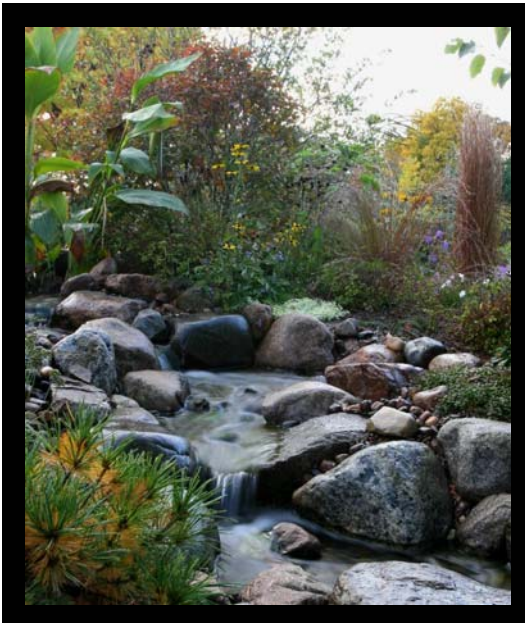

One of the easiest and most affordable ways to add beauty and value to your property is to install landscape lighting. A professionally installed landscape lighting system will make your place the showcase of the neighborhood!

Some benefits of Landscape Lighting:

- Safety - Lighting of walkways
- Security - Lit areas keep away predators
- Extends & enhances your outdoor living area
- LED fixtures saves you energy with low power consumption
- 40,000 hour life (10 years)

Professionally Designed Water Features

You can add the sights and sounds of water to your landscape with several different water feature options.

From a pondless waterfall, pond, or a simple decorative bubbler, Mullen Irrigation can help transform your landscape with one of these features to help you take full advantage of your landscape and *RELAX!!!*
